In conformity with the regulations in force, the interested party will also be aware of the rights of access, rectification, cancellation and opposition, exercise of which the interested party may do by ordinary mail to: TPM-DTI Foundation (Parc Científic de Barcelona, Torres R+D+I, Baldiri Reixac, 4-8, 08028 Barcelona (Spain)).

A Technical and Scientific Training Program to Get You Involved with the Organ and Tissue Donation and Transplantation Process at the National, European and World-Wide Level.

OBJECTIVES
– To conceptualize the objectives of the donation process.
– To promote direct and efficient application in your own workplace in order to increase the process results.
– To increase health professionals' knowledge and skills as well as to raise public awareness regarding the importance of organ donation.
– To share professional experiences and encourage the creation and development of international networks.

ADDRESS TO
– Health professionals who are involved in any of the steps of the donation process, particularly physicians and senior nurses working in referral units such as: critical care units, (recovery and emergency rooms), with a view to empower them with the competences required as transplant coordinators.
– Donor and transplant coordinators wishing to update their knowledge and reinforce their skills.
– Managers in charge of transplant programs.

FACULTY
National and International healthcare professionals with a high level of expertise in the donation and transplantation field. Considering their teaching experience, they will guide participants and provide them personalized feedback through lectures, practical simulations and discussions.
